

Flowchart to Determine Molecular Geometry

- 1a. 2 atom, any type of bonds
 - b. 3 atom, central atom no lone pair
(any type of bonds)
- } Linear
(bond angle 180°)
2. Double and/or Triple bond
(any # of atom except above)
- Planar
unknown bond angle
3. All single bonds, Vsepr Table
(spelling incorrect, should be VSEPR)
